Key data from the Cerdanyola factory. Year 2022

- The Cerdanyola factory produces thermosetting moulding compounds, with a wide variety of applications, using its own technology.

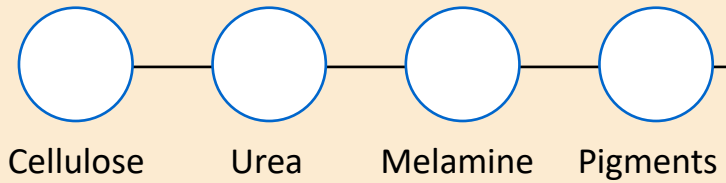

The industrial estate La Clota

Scheme of the production process of moulding compounds

Raw materials

Intermediate process

Formaldehyde

A large blue circle with the word 'Formaldehyde' in white text is centered in the 'Intermediate process' section. Two arrows point from the right side of the circle towards the 'Final products' section.

Final products

Moulding compounds

A white rectangular box with a thin orange border contains the text 'Moulding compounds'. It is located in the 'Final products' section.

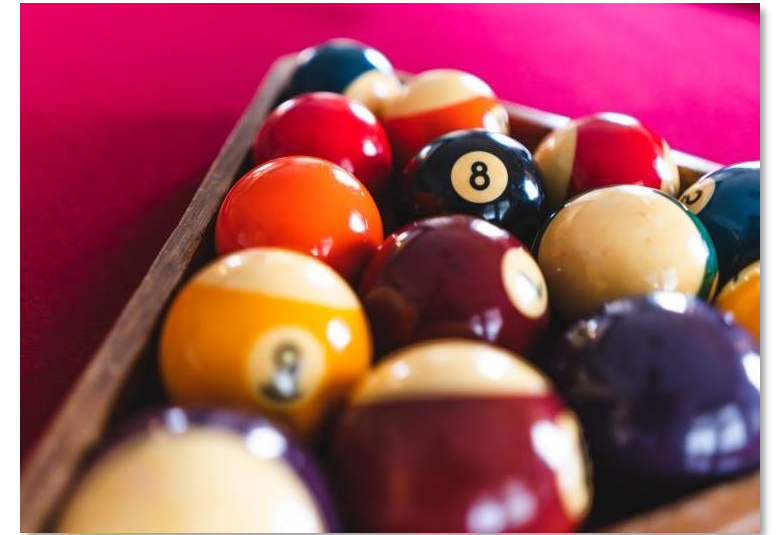

Business model

- The Cerdanyola factory is the leading manufacturer in Spain and the second in Europe of moulding compounds.
- Moulding compounds are a type of solid, granular, thermosetting polymer that Ercros produces from urea-formalin (UF) and melamine-formalin (MF).
- Ercros markets the moulding compounds that manufactures under the Carbaicar and Melaicar brands.

Production

- Ercros produces more than 268 types of moulding compounds using its own technology, which makes it possible to achieve any type of colour at the customer's request with a palette of more than 2,000 different colours.
- Can be moulded by compression, injection or transfer into a wide variety of products.

ESG Accreditations

- Prevention management system according to **ISO 45001**.
- Quality management system according to **ISO 9001**.
- Environmental management system according to **ISO 14001**.
- Verification of greenhouse gas (GHG) emissions according to **ISO 14064**.

Programs and ratings

- **Responsible Care:** Program of good practices in sustainability of the global chemical sector.
- **Global Compact:** Program promoted by the UN that contains 10 principles of action.
- **Carbon Disclosure Project (CDP):** Organization designed to assess the behaviour of affiliated companies regarding the climate emergency.
- **Climate action of the Generalitat de Catalunya:** Commitment to achieve neutrality of CO₂ emissions by 2050.
- **Voluntary agreements for the reduction of GHG emissions:** Program promoted by the Climate Change Office of the Generalitat de Catalunya to which the Cerdanyola factory has joined.
- **EcoVadis:** International sustainability rating (score 84/100 in 2022).

Compliance with the sustainable development goals (SDGs)

In carrying out its activity, Ercros contributes to compliance with the 17 SDGs set out in the UN 2030 Agenda, although it has a special impact on:

- **SDG 3:** Good health and well being.
- **SDG 6:** Clean water and sanitation.
- **SDG 7:** Affordable and clean energy.
- **SDG 8:** Decent work and economic growth.
- **SDG 9:** Industry, innovation and infrastructures.
- **SDG 12:** Responsible consumption and production.
- **SDG 13:** Climate action.
