

Celebration of the 11th Grand Prix of Karts Joaquín Costa

The Salou karting was the chosen venue for the celebration of the 11th Grand Prix of Karts Joaquín Costa, a traditional motor race that brings together the best drivers from the Vila-seca II factory.

The first laps on the track were used to classify the drivers in two groups according to the time results: A and B. Daniel Lago, was proclaimed the winner of the final B.

The A final was intense and vibrant, and after some very competitive last laps, José Antonio Correa was declared the winner, followed by José María Martínez and Gerardo Rozas.

And since speed is in their veins, the sons and daughters of the participants were able to compete on the children's kart track for under 14s.
