

## Ercros factory in Monzón makes a donation to the Red Cross

*Red Cross and Ercros' staff representatives*

The employees of the Ercros factory in Monzón have made a donation to the Red Cross to support the campaign to help the most vulnerable families in the town.

Before the end of last year, they delivered 180 kg of personal hygiene and household cleaning materials donated by the employees themselves.

The Red Cross representatives thanked for the donation, emphasising the increase in the number of people who need to be assisted by their organisation.
