This weekend the Ercros factory in Almussafes sponsored the celebration of the Valenta Sugar Cup, a charity women's football tournament in favour of type 1 diabetes research.

24 teams of promising young women's football players, between 10 and 16 years old, have gathered on the field of the Almussafes Municipal Football Camp to play in the tournament, which has allocated all the proceeds to the DiabetesCERO Foundation, dedicated to the research of a cure for this disease.

Xelo Aranda and Toni Devis, head of industrial relations and president of the company committee of the Almussafes factory, respectively, have been the company's representatives during the celebration of the charity tournament.
