

October 8-10 in Milan

**Ercros presents its products at the CPHI fair,
The world's largest meeting of the pharmaceutical industry**

Ercros participates, with its own stand, in the CPHI pharmaceutical fair that takes place from October 8 to 10 in Milan and is the largest global meeting of the pharmaceutical sector. An international meeting in which Ercros has participated since its first edition in 1990.

In Milan, Ercros will present its active pharmaceutical ingredients (API), mainly antibiotics, which it manufactures at its Aranjuez centre and exports to more than 50 countries around the world. A production centre, with 75 years of history, which has recently inaugurated a new antibiotic extraction plant that has required an investment of 14 million euros.

Ercros will present in Milan the two latest products added to its portfolio, vancomycin and gentamycin, both antibiotics especially indicated for hospital infections.

The pharmaceuticals division of Ercros is dedicated to the manufacture of generic active pharmaceutical ingredients (API) and raw materials, mainly antibiotics, through biological fermentation processes and chemical synthesis in any type of finish, including sterile.
