

Ercros celebrates World Breast Cancer Day

Ercros celebrated World Breast Cancer Day with different activities in several of its production centres.

In Almussafes, the workers who wanted to do so signed a manifesto promoted by the Spanish Association against Cancer and participated with their families in the Valencia solidarity walk against cancer, where more than 90,000 euros were raised to finance oncological research.

Aranjuez organized an exhibition aimed at staff with exposed material related to prevention, healthy habits, risk factors and the importance of self-examination and periodic medical examinations. In addition, they participated in a photocall with messages of support and calls for prevention.

The Tarragona industrial complex (CIT) distributed a brochure with information about the disease and its prevention to all staff and the day passed under the motto *Remember!*, a call to women not to forget to periodically examine themselves and go to check-ups. annual.

All Ercros work centres are accredited with the healthy management system (Sigos), which includes aspects of people's health prevention and influences healthy lifestyle habits.
