

Ercros collaborates with the Aranjuez rhythmic gymnastics club

Picture of the group of gymnasts

Ercros has initiated a partnership with the Aranjuez Rhythmic Gymnastics Club through the purchase of sports equipment for its gymnasts. The club, comprising around 120 girls aged between 4 and 20 and led by former local gymnasts, stands out for its participation in the Community of Madrid league and national competitions, while promoting values such as inclusion, respect, and perseverance.

By collaborating with a local organization deeply rooted in the community and aligned with Ercros' values, the company strengthens its commitment to grassroots women's sports and healthy habits among young people.
