

A delegation from the Generalitat in Tarragona visits the Ercros factories in Vila-seca

Representatives of the Generalitat with Ercros staff during the visit

The manager of Territory, Housing and Ecological Transition of the Generalitat Territorial Services in Tarragona, Xavier Villacampa, and the head of the Unified Management Office of Tarragona, Pere Poblet, visited the Ercros factories of Vila-seca I and Vila-seca II.

From Ercros, they were received by the manager of the Tarragona industrial complex (CIT), Joan Miquel Capdevila, and the head of the Quality and Environment department, Belén Brota.

The visit began with a presentation of the CIT and, subsequently, accompanied by the head of operations of the Vila-seca I factory, Mario López, they toured the facilities of this centre. Afterwards, they went to the Vila-seca II factory, where the heads of the vinyl chloride plant, Ángel Blasco, and the PVC plant, Ricard Sáez, showed them this centre.

All the information about the [Vila-seca I](#) and [Vila-seca II](#) factories can be found in these links.
