

The Sabiñánigo and Monzón factories in Ercros certify 9 years of social responsibility

Elena Simón receives the RSA certificate

The Ercros factories in Sabiñánigo and Monzón have obtained, for the ninth consecutive year, the stamp of Aragon social responsibility (RSA) awarded by the Government of Aragon, in collaboration with the business organizations CEOE and Cepyme, and the unions UGT and CC.OO.

The RSA stamp highlights those Aragonese companies that integrate social responsibility policies, work with transparency, contribute to the well-being of their environment and promote the training and development of employees.

The official presentation of the stamp took place at the Business Meeting held yesterday at the Zaragoza Conference Centre. The person in charge of collecting the recognition from Ercros was Elena Simón, manager of the Sabiñánigo factory.
