Ercros has sponsored the 10th edition of the solidarity race organized by the Forat del Vent institute in Cerdanyola (Barcelona). More than 1,100 students and teachers from three institutes and four schools in the town participated in it, and all of them have contributed a kilo of food that has been allocated to the Food Bank managed by Càritas Cerdanyola.

The race was held in a festive atmosphere and, at the end, attendees were able to enjoy a drinking chocolate feast. This year, moreover, more teachers have been encouraged to participate than in previous editions.

The director of the Ercros factory in Cerdanyola, Héctor Barón, participated in the awards ceremony for the different categories, together with the mayor of the town, Carles Cordón; the Councilor for Education, Pilar Adell; and two members of the Association of Families and Students of the Institut Forat del Vent.
